Place and date of birth: 12-16-1979 in Ain Sefra (Naama), Algeria

Algerian nationality

marital status: Married and have Three Child.

Phone: +21349207396

Adress: 65, B3, 92 Logts, Rue Ech-chahid Brik Mhamed, Bechar State ZIP

Phone Numbers: 00213657039566

Email: roucham.benziane@univ-bechar.dz

EDUCATION:

- 1- University Accreditation, Management Major, Tahri Mohamed University, January 2018.
- 2- PhD in Management Major, Abou bakr Belkaid University, Tlemcen, Algeria, February 2016.

Thesis title: Institutional Training Policy; Evidence from Algerian companies. Authored in originally as “سياسة التكوين في المؤسسة، دراسة حالة المؤسسة الجزائرية”

3- **Magister in Commercial Sciences Major, Human Resource Management Option**, Es-Senia University (Oran 2 Actually), Oran, Algeria, Mai 2007.

4- **Bachelor of Management Science Field.**

Dissertation title: “A new design of a production management system. Case study : dairy Manufactory of Igli” authored originally « Une nouvelle conception d'un système de la gestion de la production. Etude de cas: La laitière D'Igli ».

5- **Baccalaureate of Exacts Sciences Major**, Ibn Badis Secondary school, Ain Sefra (Naama), June 1997.

PROFESSIONAL EXPERIENCES:

- 1- **Professor**, From July 11th 2022
- 2- **Lecturer (Category A)**: From January 08th 2018 to July 10th 2022.
- 3- **Lecturer (Category B)**: From February 17th 2016 to January 07th 2018.
- 4- **Teaching Assistant (Category A)**: From august 14th 2011, February 16th 2016.
- 5- **Teaching Assistant (Category B)**: From October 04th 2008 to August 13th 2011.

1. [The evolution of green hydrogen in renewable energy research: Insights from a bibliometric perspective](#)
Feb-25

The blue economy and food security are interconnected domains gaining significant attention due to their combined potential to address global sustainability challenges. This study is unique in its approach, offering the first comprehensive exploration of the nexus between the blue economy and food security through a bibliometric analysis. Using a dataset of 2318 scholarly articles published from 1988 to 2022 in the Web of Science Core and Scopus databases, this research provides a meta-perspective on this field's thematic and temporal evolution. Advanced bibliometric techniques were employed to map emerging trends, identify critical knowledge gaps, and elucidate key themes and influential studies. [...View](#)

2. [The evolution of green hydrogen in renewable energy research: Insights from a bibliometric perspective](#)

Jan-25

Green hydrogen, generated from water through renewable energies like solar and wind, is a key player in sustainable energy. It only produces water when used, making it a clean energy source. However, the inconsistent nature of solar and wind energy highlights the need for storage solutions, where green hydrogen is promising. This study uniquely combines green hydrogen (GH) and renewable energy (RE) domains using a comprehensive bibliometric approach covering 2018–2022. It identifies emerging trends, collaboration networks, and key contributors that shape the global landscape of GH research. [View](#)

3. [Panel data on the impact of democracy and political stability on economic growth in the MENA region over the years 1983-2022](#)

juil-23

This panel dataset contains information collected from five distinct sources on the impact of democracy and political stability on economic growth in 15 emerging countries in the MENA region from 1983 to 2022. The dataset includes information about GDP per capita, inflation, trade, population growth, government expenditure, participatory democracy,... [View](#)

4. [Ex Post Facto and Trends on Total Quality Management Papers: Bibliometric Analysis in Algerian Scientific Platform](#)

juil-23

Purpose: Doing a bibliometric analysis of the papers on Total Quality Management published in Algerian Scientific Journals Platform (ASJP). Methodology/Approach: Following Bibliometric analysis approach that reaches the export of scientific papers from ASJP during 2005-2022 and using Bibiloshiny based on the R language (RStudio). Findings: The st... [View](#)

5. [An Arab Country's Digital Shift: A Case Study on Factors Influencing Mobile Banking Adoption in the Arab World](#)

sept-23

This research investigates the factors influencing the adoption of mobile banking services in the Arab region, focusing mainly on a case study from Algeria. A conceptual model integrating the Technology Acceptance Model (TAM), Diffusion of Innovations (DOI), and Trust Theory is proposed to gain comprehensive insights. Empirical validation was condu... 7. [Green Intellectual Capital A Multidimensional Approach to Sustainable Performance Waste Recycling Management in Algeria](#)

July 2204

This research investigated the relationship between the green intellectual capital (GIC) and the sustainable performance in Algeria's waste recycling management sector. Acknowledging the importance of Global Information Communication (GIC) in achieving organizational success, this research investigates how it is utilized and its effects. Using structural equation modeling (SEM) with the PLS-V3 software, the study examines information gathered from 400 entrepreneurs who oversee waste recycling businesses in Algeria. [View](#)

8. [Examining Graduating Science and Technology Student's Entrepreneurial Intentions at the University of Biskra](#)

June 2024

Using Krueger's entrepreneurial event model, this study investigated the factors influencing entrepreneurial intentions among graduating science and technology students at the University of Biskra. A descriptive-analytical approach was adopted in the research in order to examine the direct and indirect effects of perceived desire, perceived feasibility, entrepreneurial opportunities, and inclinations on entrepreneurial intentions. Data were collected through a questionnaire distributed to a random sample of students, and the hypotheses were tested using structural equation modelling (SEM).

9. [The Forward-Looking Studies on Green Human Resources Management: A Content Analysis](#)

nov-23

The present study offers a comprehensive content analysis of the Forward-Looking on Green Human Resources Management (GHRM) research, providing insights into significant findings, determinants, challenges, and future trends of GHRM. The role of GHRM in developing green behaviour and improving environmental performance is becoming increasingly impor... [View](#)

Workshops

What are we animated as Workshops?

Current workshops have started on 26-27 November, 2024

Mastering Qualitative Data Analysis Methodologies from basics to advanced levels, aimed at enabling researchers to publish high-quality research papers. The workshops cover the following topics:

- **Narrative Review:** Providing a general framework for the literature and interpreting results critically.
- **Systematic Literature Review:** Identifying and analyzing literature comprehensively using a structured methodology.
- **Content Analysis:** Extracting key themes and ideas from texts and data.
- **Bibliometric Analysis:** Studying and analyzing scientific publications using statistical methods.
- **Meta-Analysis:** Combining results from previous studies to derive accurate conclusions.

July 22-23, 2024

Workshop title: Comprehensive Workshop on Scientific Publishing and Academic Writing

On-site at Biloba School, Algiers

Mars 6-7, 2024 Second Meeting

Workshop title: **Scientific Publishing in Indexed Journals**

On-site at Faculty of Economic, Commercial, and Management Science , in collaboration with The Algerian-African Economic Integration Laboratory

December 6-7, 2023 - First Meeting

Workshop title: **Scientific Publishing in Indexed Journals and the Importance of Using Econometric Models.**

On-site at Faculty of Economic, Commercial, and Management Sciences, in collaboration with The Algerian-African Economic Integration Laboratory

Mai 4th , 2023

Workshop title: **Publishing Strategies in Journals Categorised as B (Scopus, ABDC, Erih Plus)**

On-site at Djillali Liabes University -Sidi Belabes, Faculty of Economics, Commercial and Management Sciences.

08- 09th 2021, December.

Workshop title Theme: Literature Review and Research Gap

On-site at University of Bechar Tahri Mohammed
